

VM/VS

Pay-by-Space Multi-Space Meter

VM/VS Features

- Purpose-built pay-by-space meter
- Easy and convenient for motorists
- Centerpiece of integrated enforcement solution
- Streamlined design eliminates consumables and moving parts
- Real-time wireless communications
- Level 1 PCI-DSS certified payment processing

The VM is the cornerstone of parking management in the wireless technology age. Combining the best attributes of single and multi-space parking meters in a powerful "Pay-by-Space" configuration, the VM provides exceptional motorist convenience, enforcement efficiencies, and operating efficiencies. The VM serves as a platform for integration and innovation with the AutoTRAX back-office management system, enforcement handhelds, space sensors, and more. And its streamlined, purpose-built design -- systematically eliminating moving parts throughout the meter -- provides a highly functional, economical, and low-maintenance unit.

VM/VS Specifications

Dimensions	<ul style="list-style-type: none"> 4.17' H x 11" W x 8" D
Weight	<ul style="list-style-type: none"> 125lbs, including battery and cashbox
Finish	<ul style="list-style-type: none"> Steel, baked powder coat Optional selectable premium colors or custom color matching Housing available in 304 or 316 grade stainless steel (VS Model)
Mounting	<ul style="list-style-type: none"> Surface or subterranean mount options
