WHEREAS, Seller desires to provide such Goods and/or Services to City, acknowledges that this document constitutes Seller's offer to provide the Goods and/or Services specified below, and further acknowledges that if executed by the City's Mayor, this document will become the Purchase Agreement for such Goods and/or Services.

NOW, THEREFORE, for and in consideration of the terms, covenants and conditions hereinafter set forth, the parties hereto agree as follows:

- Documents Comprising the Agreement.** The Bid Packet includes the Notice of Invitation to Bid, the Summary Sheet, Form #1, Form #2, Form #3, Form #4, Form #5, Form #6, the Instructions, Terms and Conditions for Bidders, the Special Requirements, the Technical Specifications, Exhibit A and any addenda or amendments to the Bid Packet. Seller may submit as part of its Bid additional materials or information to support the Bid. Additional materials or information submitted by Seller which are not ambiguous and which do not conflict with this Purchase Agreement or the other Bid Packet documents are incorporated herein by this reference.
- Purchase and Sale.** Seller agrees to sell City the Goods and/or Services for the price and upon the delivery terms set forth in Exhibit A hereto. City agrees to pay Seller the price as set forth in Exhibit A based on (a) the quantity actually purchased in the case of goods or services priced by unit, or (b) the total price for a stated quantity of goods or services, upon (i) delivery of the Goods and/or Services to the City, (ii) the City's Acceptance thereof, and (iii) Seller's submission and City's approval of a verified claim for the amount due. City shall not pay any late charges or fees.
- Irrevocable Offer.** Seller understands and acknowledges that its signature on this Agreement constitutes an irrevocable offer to provide the Goods and/or Services. There is no contract unless and until City's Mayor/Mayor Pro Tem executes this Agreement accepting Seller's Bid. 8. **No Indemnification by City.** Seller understands and acknowledges that City is a municipal corporation that is funded by its taxpayers to operate for the benefit of its citizens. Accordingly, and pursuant to Oklahoma law, City shall not indemnify nor hold Seller harmless for loss, damage, expense or liability arising from or related to this Agreement, including any attorneys' fees and costs. City reserves the right to pursue all legal and equitable remedies to which it may be entitled.
9. **Indemnification by Seller.** Seller agrees to indemnify, defend, and save harmless City and its officers, employees and agents from all suits and actions of any nature brought against them due to the use of patented appliances, products or processes provided by Seller hereunder. Seller shall pay all royalties and charges incident to such patents.
10. **No Insurance by City.** If City is leasing Goods herein, City shall not be required to obtain insurance for Seller's property. Furthermore, if City accepts Seller's Bid and awards a contract to Seller based on such Bid, City shall not be bound to any exceptions, changes or additions made by Seller, and any terms and conditions added by Seller which are not expressly agreed to by City in writing will be void and of no force and effect and the parties will be governed according to the document precedence set forth in Section 1 above.
13. **Compliance with Laws.** Seller shall be responsible for complying with all applicable federal, state and local laws, regulations and standards. 14. **Termination.** City, by written notice, may terminate this Agreement, in whole or in part, when such action is in the best interest of City. If this Agreement is so terminated, City shall be liable only for payment for Goods accepted and Services rendered prior to the effective date of termination. City's right to terminate this Agreement is cumulative to any other rights and remedies provided by law or by this Agreement.
15. **Price Changes.** The parties understand and agree that the variables in Seller's cost of performance may fluctuate, but any change in Seller's cost of performance will not alter its obligations under this Agreement, nor excuse performance or delay on Seller's part. If the IFB provides that Seller may include a price escalation provision in its Bid, Seller's price escalation provision will be evaluated by City as part of Seller's Bid price when awarding the Bid.
16. **Right to Audit.** The parties agree that Seller's books, records, documents, accounting procedures, practices, price lists or any other items related to the Goods and/or Services provided hereunder are subject to inspection, examination, and copying by City or its designees. Seller is required to retain all records related to this Agreement for the duration of the term of this Agreement and a period of three years following completion and/or termination of the Agreement. If an audit, litigation or other action involving such records begins before the end of the three year period, the records shall be maintained for three years after the date that all issues arising out of the action are resolved or until the end of the three year retention period, whichever is later.

**TECHNICAL SPECIFICATIONS
Minimum Specification
Sludge Polymer**

INTENT:

To obtain a source of dry sludge dewatering polymer for use in the City of Tulsa's Water Treatment Plants.

PLANT INFORMATION:

All provisions of the **American Water Works Association Standard for Polyacrylamide, ANSI/AWWA B453-01** shall apply to this specification.

Currently the primary water treatment coagulant is liquid Aluminum Sulfate (Alum) with Cationic Polymer used as a coagulant aid. Additionally, small amounts of Nonionic and Anionic Polymer may be used during the treatment process at the A.B. Jewell Plant.

Due to the different water quality supplied by each treatment plant, the sludge dewatering polymers will be considered separately for each plant and may be awarded to separate suppliers based on the results of the testing.

POLYMER TESTING:

Prospective bidders can contact Kerry Rowland at (918) 596-9847 to schedule a time to obtain a sample of the sludge from each plant if desired. The City of Tulsa will not mail samples to bidders.

City of Tulsa personal will test the three lowest submitted bids at each plant. We will run tests for a one-week period at each location. Each bidder selected is required to furnish the polymer for testing at no cost to the City of Tulsa. The polymer manufacturers may be on site during the test. Only polymers submitted for a bid proposal will be considered during trial testing. If considered necessary, the City reserves the right to test bid polymers that were not in the top three lowest submitted bids.

The following filter press performance criteria will be used by the City during testing:

Minimum Requirements

Minimum cake solids concentration (dry weight, percent total solids)	22%
Minimum overall solids capture	95%
Maximum polymer cost per dry ton of feed solids	\$10
Solids Loading, pounds of dry feed solids per hour per belt press	1,600 lbs

The objective of the polymer testing described is to select a polymer that is cost effective and meets the treatment performance requirements of the sludge dewatering process. The polymer that dewateres the sludge to the desired range, meets the required solids capture rate, and is the lowest

cost per ton of sludge solids and/or cost per gallon of sludge treated will be the preferred product for purchase.

HAZARD COMMUNICATION STANDARD:

The Oklahoma Hazard Communication Standard is a part of this specification. The seller shall provide Material Safety Data Sheets (MSDS) on the product delivered under this contract. The MSDS shall be equivalent to a U.S. OSHA Form 20 MSDS.

AFFIDAVIT OF COMPLIANCE:

The seller shall supply an affidavit with the executed contract stating that all products furnished under this contract comply with all applicable requirements of AWWA for Sludge Polymer. **An affidavit of compliance must be submitted with the bid proposal.**

All products must be non-hazardous for disposal in an approved landfill.

BID SUBMITTAL:

Two (2) bids will be accepted for separate sludge-dewatering polymers or polymer combinations from each bidder. For each polymer proposed the bidder must submit the following:

1. The price per pound for the polymer.
2. A product information sheet consisting of typical physical and chemical properties. The following information shall be included:
 - a. Form
 - b. Bulk Density
 - c. Particle Size
 - d. pH of 1% solution
 - e. Charge Type
 - f. Molecular Weight
 - g. Free Acrylamide
3. The bidder shall submit with the formal bid proposal the names of their personnel authorized to certify the Certificate of Analysis required with each delivery.

QUANTITY:

The estimated annual quantity of dry sludge polymer is listed below. The estimate is given for information purposes only. The bidder should not consider this estimate to guarantee a minimum or maximum amount. Neither an under-run, nor an over-run, regardless of extent, in the actual quantity delivered compared to the estimated quantity listed below shall entitle the bidder to an adjustment in the unit price or to any other compensation.

Mohawk: 3,250 lbs (Cationic Polymer) and 3,000 lbs (Anionic Polymer)

QUALITY:

The delivered polymer shall conform to the following:

1. The product shall contain no substances in quantities capable of producing deleterious or injurious effects to the public consuming the water. The product must not cause the treated sludge to fail the requirements for disposal of non-hazardous materials.
2. The polymer shall not lose its effectiveness for minimum of twelve months from the date of delivery.
3. The polymer shall be soluble in water in all proportions. The polymer must have good mixing characteristics and produce a minimum of nuisance conditions such as scum or foam.
4. All physical/chemical characteristics of the polymer to be provided must be compatible with the existing polymer storage and feed equipment, metering devices, pumps, belt filter press, and other equipment associated with the sludge dewatering operation.
5. The polymer shall not be corrosive to the polymer storage and/or handling equipment or the dewatering equipment.
6. The potential polymer suppliers are required to visit and inspect the belt filter press for the purposes of determining their polymer products are compatible with the existing dewatering equipment and will not inhibit performance/operation or damage the existing equipment. To arrange for individual appointments please contact Kerry Rowland at the Water Supply Administrative Office at (918) 596-9847. If you have previously visited the site and inspected the current state, the requirement for the site visit may be waived.

No bidder will be allowed to visit the site and obtain a sludge sample without an appointment.

7. If damage does occur as the result of using a polymer product that is not compatible with the existing belt filter press equipment, the polymer supplier will be financially responsible for all necessary repairs and/or equipment replacement.
8. The polymer mixing characteristics and performance shall not be significantly altered due to weather or temperature conditions.

Below are the previously tested and acceptable polymers. The polymers listed below do not limit what will be considered.
